- Hoodoos viewpoint
- Atlas Coal Mine

Tour Includes:

- Private mini coach transportation, professional driver/guide with commentary, admissions to attractions as listed

Tour Excludes:

- Gratuities, food or beverage, items of personal nature, optional Dinosite tour

Departing east from Calgary into the endless golden prairies, the fertile land suddenly drops away into a strange and stark moonscape of weird striped hills and otherworldly rock formations – The Badlands. View the impressive Horseshoe Canyon and learn about the geology, history and native plants and animals at the Interpretive Centre. Next is the town of Drumheller, the Dinosaur Capital of the World, and visit to the Royal Tyrrell Museum of Paleontology, home of 120,000 fossils of over 300 different species and one of the best dinosaur museums in the world. Explore the fascinating exhibits, watch a raptor skeleton being assembled, meet the scientists that interpret the past and learn what happens behind the scenes to collected fossils. You can also take the optional Dinosite Tour, a 3 km guided walk to search for fossils, see dinosaur bones in the ground and learn about ancient Alberta. Leaving Drumheller, you will head to the Atlas Coal Mine for a guided tour of this award-winning national historic site. Then take a stroll across the Rosedale Suspension Bridge and stop to see the Hoodoo, unique geological formations that resemble sandstone giants. Return to Calgary late afternoon.
